## During the Assembly

From your Youth Hostel to the **Krehl-** and **Kopflinik**, where our Assembly is going to take place, you will need less than 10 minutes walking. For bigger distances we are looking forward to organise a shuttle service for you.

If you want to visit our beautiful old town on your own, you can easily get there by bus. Next to the youth hostel you will find the bus stop „Jugendherberge“, from where you can take the line **32** every 10 minutes. The bus will bring you to the stop „Bismarckplatz“ in 12 minutes. From there you will be directly at the beginning of the „Hauptstraße“, our pedestrian area.

## Venue

All relevant locations can be found on the map below. You can also navigate there by using Google Maps, just enter „INF + [the number assigned to the building]“ (for example INF 410 for Krehllinik).

The walking times are calculated from the youth hostel. Please plan to arrive with 5 minutes to spare.

### **Krehllinik – INF 410**

10 min walk.

Clinic for Internal Medicine containing a lecture hall and several seminary rooms. The seminar rooms are found adjacent to the entrance hall, the lecture hall is straight ahead.

### **Kopflinik – INF 400**

10 min walk.

Here you find the main auditorium where the plenarys will take place. Just next to it there are two more seminary rooms.

### **Marsilius-Arkaden – INF 130**

15 min walk.

The Arcades are actually three unmistakably large towers (INF 130.1, 130.2, 130.3) which overlook the river Neckar. There you find – you guessed it – more seminary rooms. Meeting point is in front of the three towers (or in case of rain in INF 130.3).

### **Theoretikum – INF 307**

15 min walk.

Two workshops will take place here: „Anatomy combined with Radiology“ (Fri, Sat, Sun) and „Diabetes – Hands on and Lecture“ (Fri). Meet the tutors/the OC in front of INF 307 just next to the blue sculptures (see picture).

### **Surgical Clinic – INF 110**

20 min walk.

Follow the signs to „Chir. Klinik“. Meet the OC at the bus stop „Chirurgische Klinik Ambulanz“ right in front of the main entrance of the surgical clinic.
